Import an External Blog

You can import posts from one external blog so that they appear along with your notes. Facebook will automatically update your notes whenever you write in your blog. Imported blog posts cannot be edited.

Please only import your own blog. If you import too many blog posts in a day, you could be blocked from writing or importing new notes, and this could result in your account being disabled.

You are not importing from an external blog to your notes.
Enter a URL below to import to your notes.

Web URL:
